PROFILE

First Class Computer Science graduate with a focus on full-stack development and a strong foundation in building scalable web applications using React.js, PHP, and MySQL. Highly analytical and detail-oriented, with a proven track record of academic excellence and a passion for engineering user-centric digital solutions. Adept at bridging the gap between complex backend logic and intuitive frontend experiences.

EDUCATION

Babcock University

Jan 2021 - Jul 2025

B.Sc. Computer Science (First Class Honours)

CGPA: 4.53 / 5.00 · Top 10 % of Class

SKILLS

- Programming & Web: JavaScript (ES6+), React.js, PHP, HTML5, CSS3, SQL
 - Databases: MySQL
 - Technical Tools: Git, GitHub, Postman (API Testing), Browser DevTools, Vercel/Netlify
 - Design: Figma (UI/UX Design), Adobe Illustrator
 - Soft Skills: Critical Thinking, Team Collaboration, Technical Writing, Time Management
-

PROJECTS

- **PingGuard — Oil Security Monitoring System**
- Developed a collaborative web-based solution to track and report security incidents using external data APIs.
- Engineered a secure backend authentication system using PHP to manage user access and data integrity.

- Architected responsive frontend interfaces for Emergency and Crime Reporting modules using HTML and CSS.
 - **Notes & Task Management Application - [Live Link](#) [Github](#)**
 - Engineered a dual-purpose productivity tool for managing complex workflows through persistent notes and tasks.
 - Developed an automated sorting engine that categorizes tasks by status (Overdue, Due Soon, Due Today) and prioritizes notes by "Recently Edited" metadata.
 - Implemented full CRUD functionality and dynamic state management to ensure seamless data persistence.
 - **Smart News Dashboard - [Github](#)**
 - Engineered a dynamic dashboard that aggregates real-time news across multiple categories via the NewsAPI.
 - Implemented a secure User Authentication system and personalized dashboard views based on user preferences.
 - Developed a robust caching layer using browser storage to allow offline access and "stale-cache" fallback, ensuring zero downtime during API outages.
-

VOLUNTEERING AND LEADERSHIP

- **Planning Committee Member — TEDx Babcock University**
 - Supported welfare and logistics for TEDx Babcock, coordinating food, guest, and audience arrangements and assisting with ushering and protocol.
 - **Tutorial Committee Member — Babcock University**
 - Planned and delivered tutorials, developing creative approaches to explain concepts clearly to students.
-
